Final Note by the First Member of Council.

Subject:—

Question of amending the form of the medical certificate prescribed under Article 32, Mysore Service Regulations.

*Encl 6 papers with disposal.

These papers relate to the Comptroller's proposal to modify the form of the medical certificate appended to Art.32 Mysore Service Regulations in the light of the rules for the record of finger prints contained in paragraph 762 of the Mysore Treasury Manual, with the object of preventing false personation on the part of persons appearing before the medical officers for medical examination.

*Papers with disposal.

The Senior Surgeon while submitting the proposal is of opinion that though this object can be secured by officers sending persons for medical examination furnishing the indentification marks of the examinee to the medical officers, the proposed amendment serves as an additional safeguard.

To

The Secretary to the Government of
H. H. the Maharaja of Mysore,
Financial Deptt., Bangalore.

Sir,

In forwarding herewith for orders of Government copy of letter No.9247 dated 30th May 1916, received from the Comptroller, suggesting an addition to the form of medical certificate prescribed by Article 32 of the Mysore Service Regulations with a view to prevent false personation by providing for the record of thumb impressions of parties in the medical certificates, I have the honor to state that the object can be gained by requiring officers sending parties for medical examination to note personal marks of identification for the guidance of the examining medical officers. The taking of thumb impressions will no doubt serve as an additional safeguard. The revised form forwarded by the Comptroller is enclosed.

I have the honor to be,
Sir,
Your most obedient servant,

T V Arumugam

Senior Surgeon.

Letter No.9247 dated 30th May 1916 from the Comptroller of Mysore, to the Senior Surgeon, Mysore Government.

I have the honor to bring to your notice that the present form of the medical certificate (Med.26) prescribed in Article 32 of the Mysore Service Regulations is defective in so far that it does not make sufficient provision against false personation. It is, therefore, considered necessary to make adequate provision for obtaining the thumb impressions of the persons appearing for medical examination agreeably to Rule 2 A. of the rules for the record of finger prints, etc., appended to para 762 of the Mysore Treasury Manual.

A revised form of the medical certificate is herewith forwarded for your approval and for obtaining the necessary sanction of Government for its introduction.
